

CLINTON GLOBAL INITIATIVE

## *Commitment to Action*

WE COMMIT TO TAKE ACTION TO launch ADAMA Junior, an innovative educational program that creates agricultural villages to serve as a home for ~200 orphans and homeless youth (14-18 years old) and their teachers. These villages will serve as their home until they find their place in the work force. Through this commitment, we will integrate educational activities with work, science and technology; provide homeless youth with parental guidance and support; and provide tools for growth and create a better future for the students and Angola.
